

# 2026-2027 Elections

## Region 1 Representative Nominee

### Adina Griffith

I am honored to be considered for Regional Representative for the Florida Association of School Psychologists (FASP). My professional journey reflects a deep and sustained commitment to serving students, families, and schools across multiple roles in education and psychological services.

I began my career as an elementary teacher, serving in that role for 14 years. During that time, I developed a strong foundation in curriculum, instruction, and tiered intervention systems. I also worked for 12 years as a dyslexia therapist, providing structured literacy intervention and collaborating with multidisciplinary teams to support students with reading disorders. For the past four years, I have served as a licensed school psychologist, conducting comprehensive evaluations, engaging in data-based decision making, supporting MTSS implementation, and partnering with educators and families to promote student success. This past year, I have served as the Lead School Psychologist at Okaloosa County School District.

I have an Educational Specialist degree from Jackson State University. I have worked as a Licensed School Psychologist in the OCSD since moving to Florida from Mississippi. I have been an active member of FASP for those four years and value the organization's commitment to advocacy, professional standards, and ongoing development.

As Regional Representative, my goals are to strengthen communication between members and the executive board, increase regional engagement, support early-career school psychologists, and advocate for role clarity and appropriate practice standards. I am committed to representing our region with professionalism, transparency, and a focus on advancing high-quality school psychological services for Florida's students.
